

Location shooting

Finished Production

1.1 Common mats with EVA foam rubber

155B

**15mm nylon knitted crimp + 15mm
EVA foam + 5mm hard rubber base**

We increase the weight of mat to avoid slipping.

T4010B-

TEE UP MATS

40mm tee line turf + 10mm EVA foam

40mm pile height with good reactivities can hold the tee tightly.

1.2 Common mats with NBR foam rubber

1515NB- TWO-LAYER MATS **15mm nylon knitted crimp + 15mm NBR foam**

1. The mats can be rolled for easy shipment, which will save you large amount of freight.
2. This pad can effectively absorb the blub head shock to pretect your wrist.
3. No curling troubles anymore.
4. Portable mat with light weight, playing everywhere.

1.3 3D mats with elastic fiber

3D15B+

15mm nylon knitted crimp + 15mm elastic fibre + 2mm non-woven fabric cloth

153DNB-

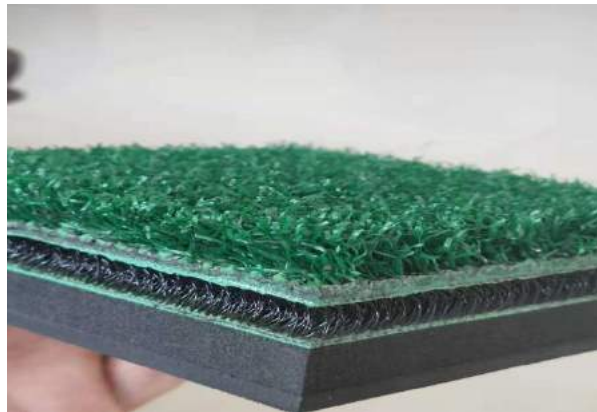

15mm nylon knitted crimp + 10mm elastic fibre + 10mm NBR foam

1.3 3D mats with elastic fiber

153D

15mm nylon knitted crimp + 10mm elastic fibre + 10mm EVA foam

3D-1

15mm nylon knitted crimp + 10mm elastic fibre + 10mm EVA foam+5mm hard rubber base

1.4 MOK turf mats

We pay more attention to the durability of the grass surface

Multi-functional mat, can be used for swing joint training, can also be used for putting practice

55mm width of each line

1.5 Teaching mats

Cross can also be designed to be white

1515BYJ-NB+

15mm nylon knitted grass+15mm NBR foam+2mm non-woven fabric cloth

1.6 Insert mats

105B

15mm nylon knitted crimp + 10mm EVA foam + 5mm hard rubber base

Size: 0.3m*1.18m

Weight: 4.3kg

40mm pile height with good reactivities can hold the tee tightly.

T40105B

40mm tee line turf + 10mm EVA foam + 5mm hard rubber base

Size: 0.3m*1.18m

Weight: 5.2kg

2. Individual practicing mats

A40-RN15

Layer: 15mm nylon knitted crimp

Pad: mould rubber

Size: 20cm*40.6cm

Weight: 2kg

A60-RN15+BN35

Layer: 15mm nylon knitted crimp+ 35mm

PE grass

Pad: mould rubber

Size: 32.8cm*60cm

Weight: 4kg

2. Individual practicing mats

3ZD FOLDING MATS

Layer: 40mm tee turf + 35mm fairway turf + 16mm putting green

Pad: 2mm non-woven fabric cloth

Size: 0.4m*0.92m or customized size

3ZD-1

Layer: 40mm tee turf + 35mm fairway turf + 16mm putting green

Pad: 5mm EVA foam rubber + 5mm hard rubber base

Size: 305mm*406mm or customized

3. Putting mats

PMP2AH

Plastic base + two-way turf + return ball way

Size: 30cm*300cm

Weight: 2.3kg

3. Putting mats

We can print any design on polyester top surface, with sharp colour.

PVC glue backing to avoid slipping.

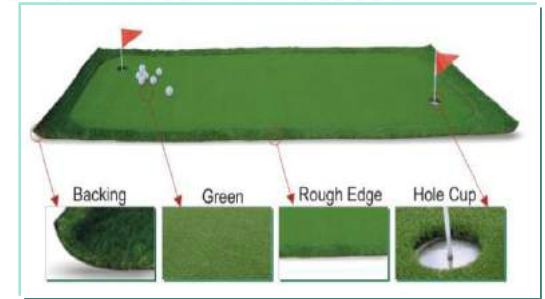

Similar to the professional ball speed.

Environmentally produced, reaching RoHs & Reach standards.

Customized size.

4. Putting green

Birdiemate brings the feeling of natural fielf green

Introduction:

- Made of professional putting green and the best simulation rough green.
- Backing: 2mm PU backing
- Weight: about 26kg/set
- Packing: packed with woven fabric bag. Very easy to carry.

Features:

- Like real court.
- Customized as customers's request in advance.
- No need installation. No need glue. Can be laid directly onto any bottom of the foundation.
- Anti-UV, waterproof, antibiosis,safe,wearble and easy to clean and maintain.
- Free of heavy metal, recycled and environment friendly. Green forever.

5. Golf Turf

Code BE163400050-2P03

Description Professional golf putting green

Pile height 16mm ± 1mm

color two tone

Gauge 3/16 inch

Stitches 40/10cm

Yarn PE

Density 84000

Backing SBR coating

Weight 3200gsm

Size 4m*10m/roll or 4m*25m/roll

Code BE405460065-2P03

Description Tee turf

Pile height 40mm ± 1mm

color one tone

Gauge 5/16 inch

Stitches 46/10cm

Yarn PP

Density 57500

Backing SBR coating

Weight 5000gsm

Size 2m*10m/roll or 2m*18m/roll

6.1 Nylon square carpet

Product specifications

Size: 50cm*50cm/pcs

Yarn: Nylon 6

Pile height: 8mm

Backing: 3mm PVC backing

Gauge: 3/16"

Packing details: Carpet tiles are packed in cartons, 3sqm/carton

Advantages

- Made of nylon, free of heavy metal.
- The carpet is densely packed with many piles, which can effectively absorb the dust falling in the air
- It has the function of balancing the indoor temperature.
- Easy to wash and change.
- Shock & noise absorption.
- Flame retardant.
- Non-slip wear.
- Easy to install. The carpet tiles are easy to handle & lay, can be detachable. They can be combined according to the location and personal hobbies, even without adhesives

6.2 DIY Turf Grass Tiles

**The top turf can be revised to your wanted one.
Easy installed and easy to clean.**

Grass Layer: 25mm PP + PE fairway grass, 980gsm

Stitches: 160/10cm

Gauge: 3/8

Pad: 120g plastic pad

Base cloth: PP + polyester cloth, 150gsm

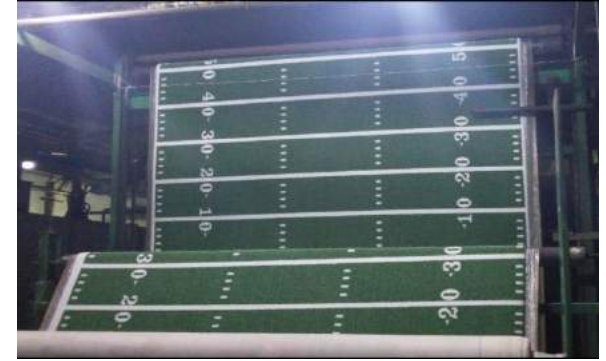

Coating: black SBR coating, 1280gsm

Size: 30cm*30cm

Weight: 0.44kg/pcs

Thickness: 2.2cm

6.3 Printed Nylon Turf

Show your design, and we develop new products for you.

Easy to carry, save space and can be applied in any location.

Printed nylon, free of heavy metal. Reaching RoHs & Reach standards.
